	Verification Code We sent a verification code to your email. Enter the code from the email in the field below.!!	
	Type your 6 digit security code	
	Verify Code Didn't Get The Code? Resend	

e. On successful verification of the code, you are registered with FitOS.

2. Login

2.1. After successful verification of code and you will be redirected to the login page. Enter your credentials to login.

Login Don't have an account yet ? Register Now	
Email james.taylor123@yopmail.com	<u> </u>
Let's Go!	
Having trouble? Forgot Password?	

2.2. When logging in for the first time, you will see a form to fill the following information:2.2.1.Your organization

- 2.2.2.Your role in the system E.g. Designer, Supplier, Creative, etc. It's a free text to allow the user to define the role they would like to go with. Currently, this is only for User Profile and doesn't impact permissions.
- 2.2.3.Your Time zone
- 2.2.4.Your Mobile Number
- 2.2.5.Purpose of joining FitOS This is a drop down consisting of 4 values viz.
 - 2.2.5.1. Brand / Business Owner
 - 2.2.5.2. Design/Creative Work
 - 2.2.5.3. Supplier
 - 2.2.5.4. Independent Service Provider
 - 2.2.5.5. Factory/Maker

Organizatio	n *

TimeZone *	New York, United States, GMT-5:00	× v
Hen fork,		
Purpose of j	joining FitOS *	
Purpose of j	joining FitOS * tion	•
Purpose of j Select Op Brand/Bus	joining FitOS * tion siness Owner	*
Purpose of j Select Op Brand/Bus Design/Cr	joining FitOS * tion siness Owner reative work	*
Purpose of j Select Op Brand/Bus Design/Cr Supplier	joining FitOS * tion siness Owner reative work	*
Purpose of j Select Op Brand/Bus Design/Cr Supplier Independe	joining FitOS * tion siness Owner reative work ent Service Provider	•

Note: The thought behind Purpose of Joining is to create an access permissions model. That is, based on the choice made in this dropdown, the system will show or hide certain screens or enable/disable certain workflows. For e.g., a supplier will be able to add/edit materials and also have access to their own supplier information only. Currently though, these permissions are not implemented.

2.3. Choosing Purpose as Supplier will display another dropdown called "Supplier of". This dropdown will have below options:

- 2.3.1.Fabric
- 2.3.2.Leather
- 2.3.3.Trims
- 2.3.4.Packaging
- 2.3.5.Others
- 2.4. Choosing Independent Service provider will display another dropdown with the following options:
 - 2.4.1.Stitching
 - 2.4.2.Seams
 - 2.4.3.Artworks
 - 2.4.4.Patterns
 - 2.4.5.Others
- 2.5. After selecting the relevant options, and clicking on Next button the user is redirected to the dashboard screen.

3. Dashboard

The dashboard is a way to quickly access items of interest. For now, the system displays -

3.1. Favorites – any style that's been marked as favorite by the user.

3.2. Recently Accessed Items – a horizontal carousel showing the Styles, Materials, etc. that the logged in user has accessed.

3.3. Notifications – Notifications the user has received, if any.

4. Manage Styles (Style Library)

- 4.1. Click on Manage Styles in the menu.
- 4.2. Create Style from List View and Card View The styles created by you will be visible in a list view by default. You can change the view by clicking on the respective buttons at the top right of the screen.

4.3. My Styles: List view
